## **REMARKS**

Applicant has filed the present amendments/revisions and REMARKS under (37 CFR 1.84) in response to the Notice Regarding Drawings dated May 9, 2006 and believes that the amendments, drawing revisions, and REMARKS are fully responsive to the aforementioned Notice for reasons set forth herein below in greater detail. Entry of the amendments and drawing revisions is respectfully requested.

In the present NOTICE OF DRAFTSPERSON'S PATENT DRAWING REVIEW the Draftsperson objected to Figs 2a, 2b, and 4 under 37 CFR 1.84(g) on grounds that the margins were not acceptable. In the drawings, replacement sheet labeled Figure 2a replaces previously entered drawing sheet 2 of 14, replacement sheet labeled Figure 2b replaces previously entered drawing sheet 3 of 14, and replacement sheet labeled Figure 4 replaces previously entered drawing sheet 5 of 14. Applicant has revised the figures and now believes that the margins in replacement sheets labeled Figure 2a, Figure 2b, and Figure 4 are now acceptable.

Additionally the Draftsperson objected to Fig(s ) 6 under 37 CFR 1.84(h) on grounds that views were not labeled separately or properly. The draftsperson instructed Applicant to relabel "Fig. 6" to indicate: "Fig. 6a", "Fig. 6b".... Applicant has relabeled Fig. 6 accordingly in replacement sheets labeled Figure 6a, Figure 6b, Figure 6c, Figure 6d, Figure 6e, Figure 6f, Figure 6g, and Figure 6h. Moreover, pursuant to Draftsperson's reminder that the Specification may require revision to correspond to drawing changes, Applicant has revised the Specification accordingly. In the drawings, replacement sheets labeled Figures 6a - 6h replace previously entered drawing sheets "7 of 14" through "14 of 14".

Additionally, in replacement sheet labeled, Figure 6g, Applicant has removed "[www.parallaxinc.com](http://www.parallaxinc.com)" in item 2 of Programmer Application Notes. Similarly, in replacement sheet labeled, Figure 6h, Applicant has removed:

"at [wwwdimensional.com/~jbreki/dialer.html](http://wwwdimensional.com/~jbreki/dialer.html)" in item 6 of Programmer Application Notes. Furthermore, Applicant contends that no new matter has been added.

In view of the foregoing, Applicant prays that this application (which has already been allowed) issue. If a telephone conference might expedite the issuance of this patent application, Applicant respectfully requests that Applicant be called at: (202) 213-0884.

Respectfully submitted,
